

emailm@gnet

Gear Synch's EmailMagnet service ensures more accurate data than collection methods currently in use at most dealers due to an end-user data verification screen which allows customer to correct typos before finalizing their entries. View a demonstration at www.emailmagnet.net.

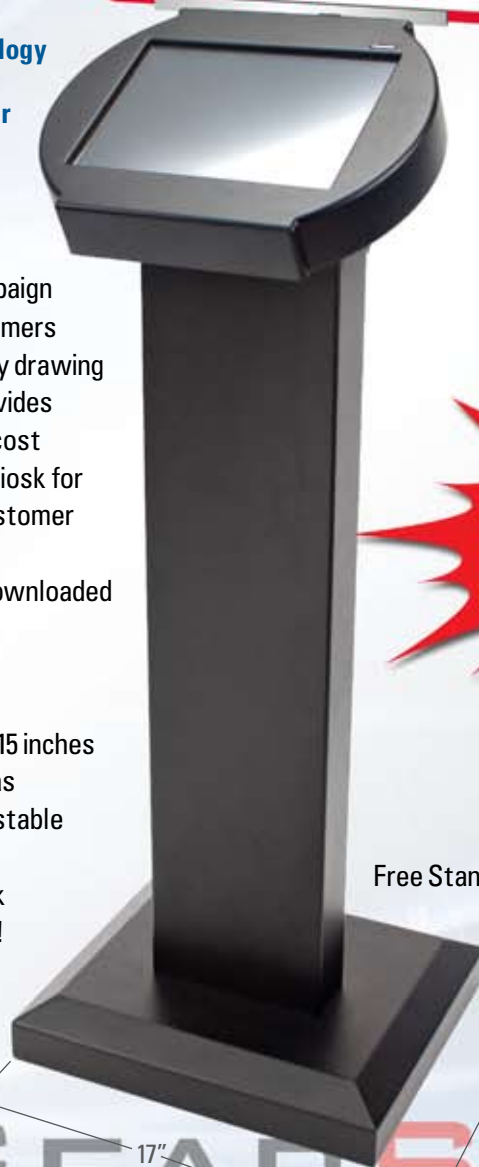

Gear Synch's **EmailMagnet** service allows automotive retailers to effortlessly collect email addresses via an in-store kiosk *and* send email campaigns to their sales and service customers.

The kiosk's unique wireless technology allows for deployment virtually anywhere - from the service cashier to the showroom floor!

Turn-key email collection and customer communication service!

Features:

- Complimentary monthly email campaign sent to registered dealership customers
- GasReward™ - a sponsored monthly drawing for ten (10) \$300 gas cards that provides registration incentive at no dealer cost
- Cellular data connection built into kiosk for real-time uploading of collected customer emails
- Emails collected by kiosk may be downloaded from secure website at any time
- Remote monitoring and support
- Bright 12.1 inch kiosk touch screen
- Small footprint (17 inches wide and 15 inches deep) is perfect for high traffic areas
- Lightweight at 55 pounds but very stable due to a low center of gravity
- Easy on-site set-up - just plug kiosk into any grounded AC power outlet!

Free Standing Kiosk

*weighs only 55lbs.
